VITRUM

THE
GLASS
COLLECTION

**LOOK.
TOUCH.
LISTEN.**

THE MOST ADVANCED AND INTUITIVE EXPERIENCE

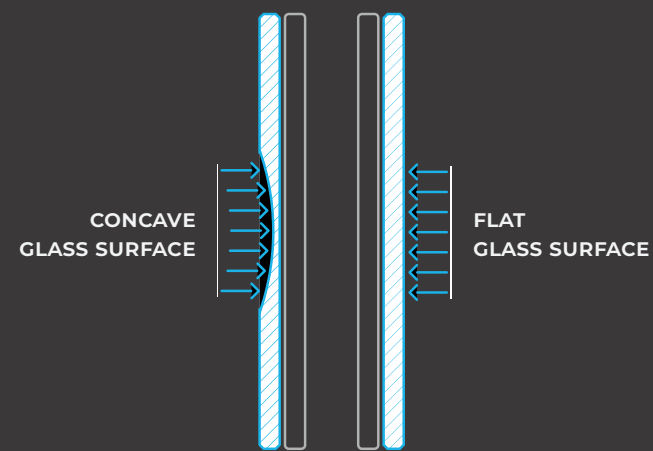

VITRUM is VDA's range of Smart Devices that have been designed using truly innovative methods and materials.

The innovative use of an ancient material such as glass, makes for a stimulating tactile experience providing a highly sensorial impact.

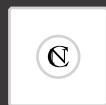

Light, essential lines, luminosity and harmony, transform simple switches into items of design with an absolutely unique aesthetic and functional identity. The design is exceptionally versatile and may be personalised through different colours, icons and screen prints.

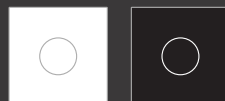

VITRUM BRITISH STANDARD

CUSTOMISED LOGO

STANDARD COLOURS

RAL CHART

Choose the materials and colours of your liking. Expand the functions and control options. VITRUM is available in all RAL colours.

You may customise VITRUM with the RAL colour of your choice, or through a silkscreen.

VITRUM ITALIAN STANDARD

Shape, light and sound, merge into unparalleled ergonomics. VITRUM involves sight, touch, and hearing.

VITRUM's buttons are surrounded by a circle of light that makes it easy to find in the dark, while its inviting concave buttons lead your fingers to the controls on the plate.

Every time your fingers touch the button, a sound informs the user of the status of the system and the outcome of the command.
